

English Home Learning

The activities listed below are for home learning with your child. These activities will support and complement the learning that is happening in the classroom. We have listed suggested timings for these activities; understanding that the demands of family life can mean that occasionally it is not always feasible to allocate the suggested time.

Practising spellings, phonics and sharing the enjoyment of reading will all require adult support.

Learning logs in KS2 should be the child's own work. However, you may find it more fulfilling to support your child with the activity by helping them choose what they are going to do and talking to them about how they will complete it. (Adult supervision may be required for some of the activities).
